EXPERIENCE

FRONT-END WEB DEVELOPER

CENTRAL TECH HUB

JANUARY 2023 - CURRENT

- Redesigned the user interface of a web application, leading to a 15% decrease in user errors and an improved overall usability score as measured by user testing.
- Worked independently and collaboratively on UI/UX projects, developing responsive web pages, implementing accessibility standards, integrating APIs, optimizing performance, and creating comprehensive documentation.
- Developed and implemented a responsive design strategy for a website, resulting in a 40% increase in mobile traffic and improved accessibility across multiple devices.
- Ensured cross-browser compatibility for a website, achieving a 95% compatibility rate across major browsers (Chrome, Firefox, Safari, and Edge).

INTERNSHIPS

FRONT-END WEB DEVELOPER

CENTRAL TECH HUB

OCTOBER 2022 - DECEMBER 2022

- Served as an ambitious and motivated Apprentice to Senior Software Developers.
- Developed responsive web pages: Created mobile-friendly and responsive web pages using React JS, ensuring a consistent user experience across different devices and screen sizes.

PROJECTS

MONUMENT OF AMERICAN DASHBOARD

- Within the dashboard, contributors can easily upload their content, including articles, photographs, videos, and other multimedia materials. The platform accommodates both paid and free content, providing opportunities for professional contributors, historians, and experts to showcase their work while also encouraging community participation. This dashboard was built within three (3) months with React Js.

TPR QUAD BIKES WEBSITE

- TPR Quad Bike is an online platform that offers an exciting and immersive quad biking adventure through wooded areas and forests. The website provides a convenient and user-friendly interface for individuals to book and experience thrilling quad bike rides in nature.
