HTML | CSS | JAVASCRIPT | REACT JS | NEXT JS | GIT | FIGMA | NOSQL (MONGODB) |

WORK EXPERIENCE

● **Front End Developer (INTERN)**

Central Tech Hub (IT Services and IT Consulting)

Sept 2022 - Dec 2022   Kasoa, Central Region

Central Tech Hub is a primary technology and entrepreneurship system that seeks to provide quality tech labor force, products and services.

- Created a custom client dashboard called the Monuments Americas that helps them to upload both paid and free content for their mobile user, Add organizations, where you can give roles and permissions to a user being added by the admin and Send Notification to their mobile user on the dashboard etc.
- Daily maintenance of code, debugging issues and solving clients' problems
- Presented findings in a clear and concise manner to key decision-makers
- Collaborated with the UX/UI design teams to improve the website and applications.

- **RENT MANAGEMENT SOFTWARE**

(School Project)

Rent management software is used by individuals who are looking for an available home to rent or to purchase that is for normal users. With the same app we can register you as a landlord / landlady. The job of the landlord / landlady is to post-available legit homes, where individuals who are looking to rent a home can have access to the details of the house.
